The History of the Pennsylvania Fish & Boat Commission

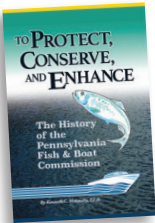

Since 1866, the Pennsylvania Fish & Boat Commission (PFBC) has maintained its philosophy of "Resource First: Protect, Conserve, and Enhance" for both the preservation of the resource and the provision of recreational fishing and boating opportunities. This 400-page history book not only chronicles PFBC's path and accomplishments, it also serves as a history of the emergence of Pennsylvania fishing and boating as we know it today. Written by esteemed Pennsylvania historian Kenneth C. Wolensky, Ed.D., this 6-inch by 9-inch book is rich with documented history and a visual archive that equates to approximately half of the book's content. The inclusion of vintage photographs and stunning artwork from PFBC's archives provides a wonderfully entertaining complement to the text. Whether you're a fan of fishing history or Pennsylvania history, you'll want this book for your personal library.
