Addition to List of Class A Wild Trout Waters 2007

The Fish and Boat Commission (Commission) has approved an addition to the list of Class A Wild Trout Streams as set forth at 37 Pa. B. 2666 (June 9, 2007). Specifically, the Commission added Middle Spring Creek, Section 01, in Cumberland County. Section 01 of Middle Spring Creek extends from its source downstream 1.48 miles to Avon Road (T-303).

Pursuant to 58 Pa. Code §57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. The Commission manages these stream sections for wild trout with no stocking.
