 Classification of Wild Trout Streams
 Proposed Additions to List
 January 2012

Under 58 Pa. Code §57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission's Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time-to-time publish the list of wild trout streams in the *Pennsylvania Bulletin*. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on January 30 and 31, 2012, the Commission will consider changes to its list of wild trout streams. Specifically, the Commission will consider the addition of the following streams or portions of streams to the list:

| County | Stream Name | Tributary To | Section Limits |
|---------------|--|----------------------------------|---|
| Bedford | Shawnee Branch | Raystown Branch Juniata River | Headwaters to backwaters of Shawnee Lake |
