

Highlights from the

2022 Boating Regulations Recap *Information All Boaters Must Know*

This article reviews key regulatory and safety information that boaters must know before venturing out on the water. The annual Boating Regulations Recap brochure also highlights new regulations that were recently approved by the Pennsylvania Fish and Boat Commission (PFBC). The Boating Regulations Recap paired with the *2022 Pennsylvania Fishing Summary/Boating Handbook* provides boaters with comprehensive safety information to use when operating watercraft on Pennsylvania waterways.

Personal Flotation Devices (PFDs)

- A United States Coast Guard-approved wearable life jacket is required for each person on board. In addition, one throwable device is required on boats 16 feet in length or longer.
- Children 12 years of age and younger must wear an approved life jacket on Commonwealth waters when underway on any boat 20 feet or less in length and in all canoes and kayaks.
- All water skiers and anyone towed behind vessels, personal watercraft operators and passengers, and sailboarders (windsurfers) must wear a life jacket. Inflatable life jackets are not acceptable for these activities.
- Wearable life jackets must be “readily accessible”, which means that they are out in the open ready to wear or they are stowed where they can be easily reached. Throwable devices must be “immediately available” or within arm’s reach. A life jacket that is stored in a protective covering or sealed in its original packaging is not readily accessible or immediately available.

Mandatory cold weather life jacket wear

From November 1 through April 30, boaters are required by law to wear life jackets on board boats less than 16 feet in length or any canoe, kayak, or paddleboard. This regulation is intended to protect boaters from dangers of cold water shock if they fall into the water. Recreational boating fatalities that occur in Pennsylvania from November through April are primarily due to the effects of cold water immersion. When water temperatures are less than 70 degrees F, cold water shock is a major factor in boating fatalities. Victims who wear a life jacket when exposed to cold water have potentially life-saving advantages such as insulation from the cold,

Mandatory boating education

HP OF MOTOR	RESTRICTIONS OF USE
PWC	All PWC (personal watercraft) operators, regardless of age, must have a Boating Safety Education Certificate. Persons 11 years of age or younger may NOT operate. Persons 12 through 15 years of age may NOT operate with any passengers on board 15 years of age or younger or rent a PWC.
0-25hp	None
Greater than 25hp	Persons 11 years of age or younger may NOT operate. Persons born on or after January 1, 1982, may not operate unless they have obtained and have in possession a Boating Safety Education Certificate.

buoyancy for victims who are unable to tread water, and reduced risk of aspiration of water. In an effort to reduce the number of fatalities related to cold water immersion, the PFBC has amended regulations to require life jackets to be worn on small and unstable boats during the period most noted for cold temperatures.

Boating accidents

Boating accidents must be reported in writing by the boat operator or owner to the PFBC when:

- A person dies or disappears.
- A person is injured and requires advanced medical treatment beyond first aid.
- Damage to the boat and other property totals more than \$2,000, or there is a complete loss of the vessel.

Boating Accident Report Forms (PFBC 260) are available on the Commission's website. Reports must be sent to: Pennsylvania Fish and Boat Commission, Bureau of Boating, P.O. Box 67000, Harrisburg, PA 17106-7000.

Water-skiing and similar activities

- It is unlawful to operate a motorboat at any speed with a person or persons sitting, riding, or hanging on a swim platform (teak surfing) or swim ladder attached to the motorboat, except when launching, retrieving, docking, or anchoring the motorboat.
- It is unlawful to operate a motorboat at any speed when towing a person on water skis or other devices using a tow rope of 20 feet or less.
- Wake surfing is excluded from the 20-foot tow rope requirement.
- Boats engaged in the activity of wake surfing are limited to slow, no-wake speed when within 200 feet of the shoreline, docks, launch ramps, swimmers or downed skiers, persons wading in the water, anchored, moored or drifting boats, and other marked areas.
- It is unlawful to operate a motorboat propelled by an outboard motor, inboard/outboard motor, or water jet while a person is wake surfing in or on the wake of the motorboat, **unless the propulsion system is specifically designed by the manufacturer for that activity.**
- Skiing is illegal between sunset and sunrise.
- In addition to the operator, a competent observer must be in the boat in a position to observe the towed person.
- Conventional water-ski tow ropes may not exceed a length of 80 feet.

Specially regulated waters

Additional regulations such as speed limit and slow, no-wake areas affect boaters on specific waterways. Boaters should read all regulations posted on the bulletin boards at access areas. Know the waters you plan to boat before you go.

By understanding boating regulations and safety information, you will be prepared while on the water. Visit FishandBoat.com. ☐
