

NOTICE

COLD WATER KILLS!

WEAR YOUR LIFE JACKET!

Boaters are **required by law to wear a life jacket** on boats less than 16 feet in length or any canoe or kayak during the cold weather months from **November 1 through April 30**. Life jackets save lives year-round. In addition to this regulation, the Commission strongly encourages all boaters to wear their life jackets at all times during the other months of the year.

For ice anglers this winter, be safe on the ice and know the proper thickness.

Ice Safety Thickness

There are many factors that influence ice strength including water chemistry, wind and sunlight. Please note that these are general ice thickness guidelines and carefully check ice conditions before venturing onto the ice.
