

## Certification of Boat Length

**Currently a discrepancy exists concerning the exact length of your boat. In order to process your application for Pennsylvania registration, we require the correct overall length of your boat.**

### Instructions

- Complete Sections A, B, and C. *Your application for registration cannot be processed without the correct boat length information.*
- Make sure to measure your boat and record the length in feet and inches in Section B. The overall length of your boat is the horizontal distance from the bow (front of the boat) to the stern (back of the boat) along the centerline. It excludes any projections that are not part of the boat's hull such as an outboard motor or swim platform.
- Mail to:
