

PENNSYLVANIA'S FALL FISHING HOTSPOTS!

Unscramble the words below to find the fish you can catch in these fall hotspots!

1. _____ **lealyew**
fishing on Lake Erie is great! They school offshore through October.
2. _____ **aeeesldth**
school in Lake Erie before making their spawning runs up streams and rivers.
3. _____ Huge land-locked **respdit sabs** hang out in Raystown Lake, just waiting for you!
4. _____ Look for **uttur**, newly stocked in streams across Pennsylvania in the fall, including Bald Eagle Creek.

5. _____ You'll have a great time fishing for monster **sieukms** this fall. Try the Schuylkill River in Berks County.
6. _____ In lakes, **nispahf** move to deeper channels in the fall; Hills Creek Lake in Tioga County is a great hotspot!
7. _____ Try for **oslthalmum abss** in the deeper, slower parts of rivers, like the Allegheny River in Armstrong County.

8. _____ Fish for **loyelw cherp** near dropoffs in the deeper parts of lakes, such as Lake Wallenpaupack in Wayne County/Pike County.
9. _____ **ternnorh kiep** are native to the Ohio River and Lake Erie watersheds. Look for them in western PA lakes and large rivers like the mouth of Conewango Creek in the city of Warren.

To check hotspots in your area, visit the Fish & Boat Commission web site's Regional Reports page: www.fish.state.pa.us/splashes.htm.

Answers are included at the bottom of the Mini First Aid Kit page.
