

Fish Finder

Identify the fish based on the descriptions below.

Refer to the pond diagram to learn where these fish hang out.

Write the answer on the blank.

Answers are found on page 7 of this *PLAY* issue.

1. Look for this fish in areas with weeds, lily pads, stumps or downed logs.

4. Docks often provide great shelter for this and other panfish.

2. This fish is a bottom-dweller. It can be found in deep waters of ponds and lakes.

5. Look for this fish around the edges of underwater plants growing along the shore.

3. This fish is not a bottom dweller. It is found in cover including submerged brush, logs, stumps and tree roots.
