

# Know those **Knots**

You will need to teach your friend how to set up a fishing rod on their own, so you can get fish, too.

There are a couple of knots that you need to know to get started. Both of these knots will help you attach a hook to your line, and that is enough to begin fishing.

## Palomar

1. Make a loop of 4 inches or so of line.
2. Put loop through eye.
3. Tie an overhand knot with loop. Hook should dangle from middle of knot.
4. Pull loop over hook.
5. Pull both lines to tighten.

## Improved Clinch

1. Thread line through eye and double back on line.
2. Wrap loose end around line to reel five times.
3. Thread loose end through first loop above the eye.
4. Thread loose end through the big loop made in step #3.
5. Pull tight.
