## Bass Fishing FUN

Bass fishing is a fun activity. Bass are known for their strong fight and acrobatic efforts of throwing the hook. There are several different fish species that people call black bass, but this newsletter will focus specifically on Smallmouth Bass and Largemouth Bass. The Spotted Bass is also a black bass in Pennsylvania.

Did you know that Smallmouth Bass and Largemouth Bass are actually members of the Sunfishes family? They are related to Bluegills and other fish commonly known as sunnies. Let's take a closer look at fishing for bass.

*Xander Meese, age 5, with his first Largemouth Bass,  
Quemahoning Reservoir, Somerset County.*
