### **Additions to List of Class A Wild Trout Waters**

The Fish and Boat Commission (Commission) approved the addition of thirty-eight stream sections to its list of Class A Wild Trout Streams as set forth at 48 Pa. B. 1069 (February 17, 20178). Pursuant to 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries.
