

## **Notice**

### **Additions to List of Class A Wild Trout Waters**

The Fish and Boat Commission (Commission) approved the addition of 3 stream sections to its list of Class A Wild Trout Streams. The proposed changes were set forth at 49 Pa. B. 4628 (August 17, 2019). The Commission received a total of 135 public comments regarding the proposed designations: 96 support the proposed designations, 17 oppose the proposed designations, and 22 comments were placed in the “other” category. In response to these public comments, the Commission revised the list as noted in the attached table.

Pursuant to 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission’s policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth’s naturally reproducing trout fisheries.

FOR THE PENNSYLVANIA FISH AND BOAT COMMISSION:

Timothy D. Schaeffer  
Executive Director
