Classification of Wild Trout Streams Additions October 2019

The Fish and Boat Commission (Commission) approved the addition of 36 new waters to its list of wild trout streams as set forth at 49 Pa. B. 4626 (August 17, 2019). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams, and it is available on the Commission's website at
