

2015 Deputy Waterways Conservation Officer Awards

Annual Deputy of the Year Program

Deputy Waterways Conservation Officers (DWCOs), working with Waterways Conservation Officers (WCOs), perform mainly specialized law enforcement duties in protecting, conserving and enhancing Pennsylvania's aquatic resources.

Deputies work long hours, often on weekends and holidays. As volunteers, they receive a small stipend to help with expenses; however, they are not otherwise compensated.

Any officer may nominate a deputy for this service-based recognition. Regional committees in the Commission's Bureau

of Law Enforcement and Regional Outreach and Education Coordinators review the nominations to choose one award recipient in each region. The six nominee award winners are presented with a dated plaque at their annual winter region meeting. The awards carry the distinction of the recipients knowing that their peers selected them.

The six region nominees are reviewed for a final selection of the Statewide Deputy of the Year award winner. ☐

Becoming a DWCO

DWCOs engage in successful work from a variety of backgrounds and choose to be DWCOs for many reasons. All DWCOs share a common commitment: to safeguard the public along our waterways and to protect, conserve and enhance Pennsylvania's aquatic resources and the environment. Many DWCOs use their training and experience to move on to other law enforcement occupations.

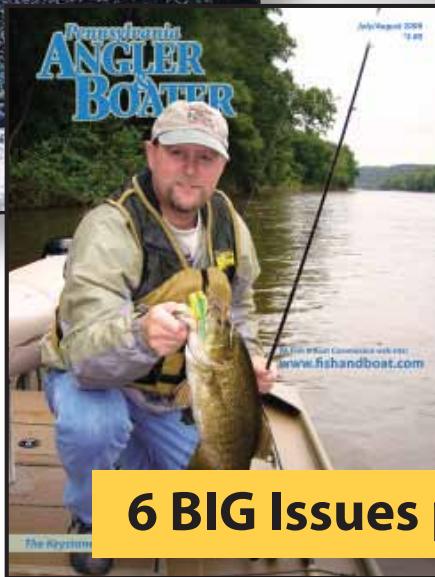

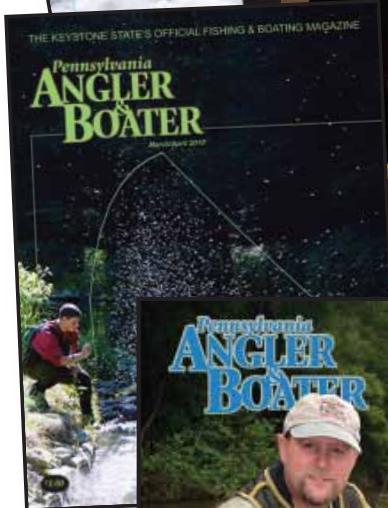

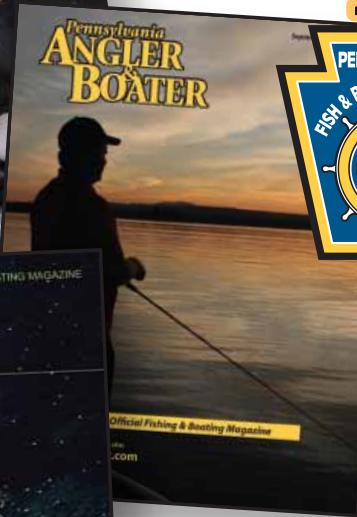

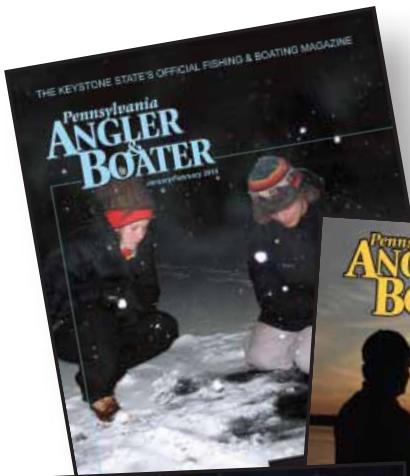

Anyone interested in learning more about DWCO positions should contact the nearest Pennsylvania Fish & Boat Commission Regional Law Enforcement Office. These offices are listed on the Commission's website at www.fishandboat.com and in the *Pennsylvania Fishing Summary*.

Always Wear Your Life Jacket

Make sure the life jacket fits

For a life jacket to work properly, not only does it need to be on your body, it should fit properly as well. A properly fitting life jacket is more comfortable (meaning you are more likely to wear it) and is a legal requirement, but more important, it functions better. Life jackets that are too large can ride up or even come off when you are in the water. For more information, go to www.fishandboat.com/boatcrs/pfd/fit.htm
