

The Pennsylvania Council of Trout Unlimited presented Karl Lutz, Stream Habitat Section Chief, with the **"2015 Outstanding Coldwater Conservationist Professional Award"** at its annual meeting in October.

The Tioga County Conservation District presented Dave Keller, Habitat Manager, the **“2015 Educator of the Year Award”** for excellence in landowner and public education at their Ag Banquet in November. Dave was selected for this award for his efforts with the two day stream project tour on Canoe Camp Creek, with about 130 attendees. “Dave did an excellent job explaining the value of stream restoration and how the in-stream devices work. But this was no surprise; we've seen him do the same on many prior projects and even transform the perspective of a landowner by 180 degrees from being against a project to being a proponent who then relates the conservation message to friends and neighbors.”
