MATERIALS:
- R4 Sandstone (6"-12")
- R5 Sandstone (9"-18")
- Jute Matting
- Geo-textile fabric

NOTES:
- Limestone can substitute sandstone
- Deflectors are blended into the shoreline
- Jute matting will temporarily stabilize shore
- Riparian buffer may be established
- Not to scale
- All sizes are approximate
- Fit in field

Suggested equipment:
- Excavator with hydraulic thumb
- Skidsteer or payloader
