** Unlawful to take, catch or kill American shad, hickory shad (endangered species), alewife and blueback herring (collectively known as river herring) in the Susquehanna River and all its tributaries.

*** Schuylkill River upstream of the I-95 bridge and its tributaries.

NOTE: It is not a violation of the bass regulations if a bass is immediately returned unharmed to the waters from which it was taken. It is unlawful for an angler to cast repeatedly into a clearly visible bass spawning nest or redd in an effort to catch or take bass.

NOTE: For bass regulations, power dam pools and recreational dam pools on the Susquehanna River and navigational dam pools on the Ohio R. drainage are "rivers."

NOTE: Approved trout waters are closed to fishing from March 1 to the opening day of the regular trout season in April, unless included in the Early Season Trout-Stocked Waters Program. The list of approved trout waters begins on page 27.

NOTE: Landlocked alewife less than 8 inches in length taken from inland ponds, lakes or reservoirs that are collected by legal means may be harvested for use as baitfish.
