

# Little Juniata River, Blair County Stream Restoration Project

# Project Partners

- Little Juniata River Association
- John Kennedy Trout Unlimited
- Altoona Water Authority
- First Energy Corporation
- Blair County Conservation District
- Pennsylvania Fish and Boat Commission

# Project's Purpose

The purpose of the project is to create diverse habitat for wild trout and other aquatic organisms as well as stabilize a highly eroding stream bank. The project will provide complex cover for all age classes of trout and also reduce the amount of nutrients and sediment that enter the stream system.
